2021-22

# Reconsulting Nyasa

The Nyasa had been working in IIT Gandhinagar without a formal structure for a very long time. Considering the activities, we planned during the initial period of the Covid-19, and for the coming year, the current team has reconstituted the Nyasa. The existing structure has all aspects where a student or individual can explore their ability as a designer, editor, event organizer, and also in outreach management. As an experiment, we recruited an optimal number of organizing teams. We implemented major activities of Nyasa (Sanjeevani and Summer Camp) within a short period and with a significant success rate. We hope the current structure can help achieve a significant social outreach for IIT Gandhinagar through Nyasa in the coming year.

## Distribution Drive

Nyasa, in collaboration with the institute's social outreach, distributed essential items during the pandemic, such as masks (348), reusable sanitary napkins (112), mosquito repellent coils (210), fruit packets (2 bananas, 1 Apple, and 1 Orange - 600 packets), and sweets 600. The volunteers also conducted a 'sweets and fruits distribution' drive at the construction workers' colony. Nyasa also paid gratitude to the entire contractual and housekeeping staff for their endless effort in helping the community by continuously providing essential services during the lockdown period.

# Regular Health Care Activities

Nyasa arranged a regular vaccination program for kids with the help of the Public Health Centre, Palaj. The medical centre team of IITGN was also made available for construction workers. Reusable and one-time-use sanitary napkins were procured and distributed in the workers' colony through the assistance of AVNI and the Desai Foundation.

# Educational Activities

Nyasa volunteers worked hard to formally enroll some of the children of construction workers in Basan village's government school. Invaluable efforts of **Mr. Sunil Patel** (Basan school principal), **Prof. Gaurav Srivastava**, **Prof. Sharada C V**, and **Prof. Harish** (for granting the permission during the covid period) are greatly appreciated to make this a reality. Twenty children have completed their schooling for the academic year 2021-22 and received their transfer certificate from Basan School. This is the first time in the history of IITGN. The special training program has been conducted for the kids to help them to get inducted into formal education.

# Other Activities

The Shramik Kalyan Samiti (Labour Welfare Committee), in collaboration with NYASA, distributed hoodies among the construction workers and provided T-shirts to all the contractual staff. The distribution drive was a gratitude gesture to recognise their unceasing effort in the institution-building works and for providing relentless essential services during the pandemic. The volunteers of Nyasa distributed a total of 463 T-shirts and 594 hoodies between January to March 2022.

Diwali celebration Organized with Nyasa kids, arranged new attires for all kids and set up rangoli.

Organized one-day science city visit. On April 17, 2022, Nyasa school students and members visited Science City. The group had a great time touring the Space Hall, Planet Earth, Nature Park, Robotics Gallery, and Aquatic Gallery.

The current team initiated and reached out to various funding agencies for the Corporate Social Responsibility (CSR) fund, and we were able to secure material contributions (Soft drinks, Food Packets, Spectacles) from various outlets during the Sanjeevani. We have increased our number of sponsorships for the 2022 Sanjeevani; this has been a new initiative for Nyasa.

The current team initiated and set up a new donation portal (<https://donate.iitgn.ac.in/nyasa>) for the Nyasa - this can easily be used for monitory contributions.

# NYASA IIT GANDHINAGAR

A YouTube video player showing a thumbnail of a man interacting with two young boys. The video title is "The Nyasa Story". The player includes standard YouTube controls like play, volume, and a progress bar showing 0:00 / 6:50. It also has "Watch later" and "Share" buttons.

# Sanjeevani

IIT Gandhinagar as an institution has always believed in the general health and well-being of not only our community members but also of our neighbours. Sanjeevani, the flagship event of Nyasa, is a health camp that brings together people from villages, community workers and doctors to a common point where they can interact engage and resolve their health issues. During the previous Sanjeevani, we had several health camps conducted within the villages. However, since IIT Gandhinagar has always been welcoming and open to its surroundings, this time we hosted Sanjeevani on our campus with families and children coming from neighbouring villages including Basan, Lekawada, Alampur, Siholi and Rampura. The event was conducted in Academic Block 7 at IIT Gandhinagar with each of the classrooms being converted into a check-up room for a certain specialty. The specialties covered the General Physician, Ophthalmologist, ENT specialist, Dermatologist, Gynecologist, Pediatrician, Orthopedic surgeon, Physiotherapist, and Dentist

Number of beneficiaries	:	450+
Number of doctors	:	19
Number of supporting staff	:	20
Number of volunteers from IIPHG :		21
Number of volunteers from MSU :		19

Different stalls and awareness programs were conducted that included Nutrition and Physical Fitness and First Aid, Hygiene, Waste Disposal and safe drinking water, Diseases (Diabetes, and Cancer), Nasha Mukti, AIDS Awareness, Men's health and wellbeing, Women's health and wellbeing, Child's health and wellbeing, Farmer's awareness, NEEV, Centre for creative learning (CCL). Blood donation camp was also held in which 45 students donated blood. Yoga was introduced for the first time in the Sanjeevani health mela.

# Summer Camp

Nyasa had concluded a successful summer camp for the 95 kids from the nearby villages and IITGN construction worker colonies. Ten days program was scheduled in which a variety of activities ranging from art & craft, music, dancing, and sports to science experiments, archaeology sessions, and computer training lessons.

**SUMMER CAMP**  
FOR STUDENTS OF CLASSES 4-8  
OF NEARBY VILLAGES

**Highlights:**

- ▶ Art and craft
- ▶ Dream catcher
- ▶ Preliminary English
- ▶ Computer class
- ▶ Archaeological session
- ▶ Science experiments
- ▶ Sessions from CCL
- ▶ Sports
- ▶ Music and dance

**REFRESHMENTS AND FUN GAMES**  
**30 MAY - JUNE 8**  
**AT IIT GANDHINAGAR**

 IIT Gandhinagar  Desai FOUNDATION

**10-day performing and visual arts training program:**

The aim of this training program is to nurture the interest in arts at an early age. The children from Basan village would be brought to the campus for the training program. The training program would be expanded as per the beneficiaries' needs.

**Admission to regular schooling through the STP program:**

The children of the construction workers coming to Nyasa school would be admitted to Hindi medium school after the completion of the STP program. This would help the kids to streamline their education with the help of IITGN.

# New Planned Initiatives 2022-2023

**Project Olympians:**

Children from the nearby villages and the Nyasa school children will be trained in the IITGN sports complex to nurture the athletes in them.

**Ignite :**

This activity will target higher secondary school at Lavarpur. Course, lab, and counseling for higher studies will be provided to the children at higher secondary school.

**10-day Computer Class:**

The aim of this training program is to make a crash course tailored for the 7 -10th Standard kids. The children from Basan village would be brought to the campus for the training program. The training program would be expanded as per the beneficiaries' needs.
