

ANNUAL REPORT

ACADEMIC YEAR 2025-26

SUMMER CAMP

NYASA, in collaboration with the Desai Foundation Trust, organized its summer camp from 21st to 30th May 2025. More than 60 students aged 11-14 from the Shahpur Adarsh Primary School & 25+ kids from NYASA School at IIT Gandhinagar participated in this summer camp. The Summer camp provided several activities that combined learning and fun for the students.

Children participated in engaging art-based activities like vegetable printing, calligraphy & sketching by Prof. Sameer Sahasrabudhe. A superhero costume-making session was also organized with Art@IITGN. To build necessary skills like communication, students were introduced to the world of theatre through skits, movement exercises & group performances, led by Mr. Dhairya. An archaeology session led by Prof. Sharada CV's group was held, featuring activities such as fossil puzzles and excavation games. Different skulls were exhibited, and students learned about fossils, ancient coins, and artifacts. This session helped develop interest in history and human heritage.

The IITGN library Team held a session that guided the use of encyclopedias, maps, and dictionaries as reference materials. Students learned about the library tools and the Google Apps. Videos featuring inspiring stories of national icons and their social contributions were shown to ignite their minds. The Center for Creative Learning (CCL IITGN) organized a hands-on session that helped develop curiosity, creativity & basic scientific thinking through fun activities such as making whistles, paper boats & geometric designs. Such sessions teach concepts in a practical manner beyond school textbooks.

SUMMER CAMP

Further, Tinkerer's Lab & Maker Bhavan introduced students to modern innovation techniques such as 3D printing, laser cutting & vinyl design. To help them connect the dots between technology and corresponding designs, models based on physics and engineering principles were displayed. There was also a demonstration of a non-Newtonian experiment. Using a mixture of cornstarch and water, the children learned the unique properties of these fluids, which harden when you punch them. It's essential for the coming generation to value resources and to focus on eco-friendly practices to achieve sustainability. KPCSD and the Green Club held informative sessions, along with interactive quizzes & group work, to teach energy conservation and waste management.

It is important for the young generation to strive for physical fitness and mental well-being. To promote these, the sports IITGN team organized a sports day during the summer camp. It was designed to foster team spirit, concentration, and mindfulness. The kids also enjoyed a glass of sugarcane juice afterward. In the same spirit, we also focused on the general awareness and well-being sessions. A gender sensitization session was conducted by Dr. Namrata Saxena to promote gender equity and mutual respect among the kids. For the girls, a menstrual hygiene awareness session was conducted by Ms. Divya and Ms. Priyanka, focusing on personal hygiene. These sessions were designed to create a safe and inclusive space for learning and sharing.

The final day celebrated the journey of all participants. Students showcased short films they created, received gift packages with laser-cut keychains and stationery, and shared feedback on their favorite camp moments. Volunteers and mentors were felicitated, and professors delivered words of encouragement, closing the camp with appreciation, reflection, and a sense of collective achievement.

PATHWAY PROGRAM TO REGULAR SCHOOLING

Nyasa's Pathway program is an initiative focused on providing formal education to underserved children. This year, the program has successfully enrolled nine Nyasa kids into the Colonel Heritage School in Chiloda, where they began attending classes in June. For most of these children, this marks their first time ever attending a formal school, representing a significant step toward a brighter future.

FOUNDATION PROGRAM & AROHAN

During the orientation for new undergraduate and postgraduate students at IITGN, Nyasa provided an overview of its key initiatives like Summer camp, Nyasa school and Sanjeevani.

DISTRIBUTION DRIVES

The IIT Gandhinagar community plays a vital role in supporting Nyasa's regular distribution drives. Through on-campus donation boxes, students and staff contribute items such as clothing, footwear, and toys. Nyasa then distributes these donations to construction workers in nearby colonies and to the housekeeping and horticulture staff working on the campus.

CHETANA 8.0

The Chetana Program is a community-driven educational initiative of Nyasa, aimed at supporting the holistic development of children. More than 100 members of the IIT Gandhinagar (IITGN) community, including students and staff, volunteered their time to teach and mentor children through regular academic sessions in subjects such as Hindi, English, and Mathematics. In addition to classroom learning, the program included engaging visits to the IITGN library, fostering reading habits, curiosity, and a love for learning. The program also emphasized co-curricular development. Dance classes conducted by Ms. Ritaja Roy were enthusiastically received by the children. Creative sessions organized by the Palette & Art@IITGN further nurtured the children's interest in arts and creativity. Furthermore, children who secured admission to regular schools were supported through dedicated tuition classes to ensure a smooth transition and help them excel in their formal education.

AKANKSHA

In September, Nyasa launched Akanksha 3.0 for students from Palaj and Basan Government Schools. The program focused on preparing Class 5 students for competitive examinations such as the Jawahar Navodaya Vidyalaya entrance exam and the Gyan Sadhana (Gyansetu) Scholarship exam.

AKANKSHA 3.0

As part of the initiative, students were trained in arithmetic and mental aptitude to strengthen their problem-solving and analytical skills. In addition, Nyasa extended academic support to Class 8 students by providing study materials for the National Means-cum-Merit Scholarship (NMMS) examination, reinforcing its commitment to supporting students across multiple academic levels. 8 students from Palaj & Basan Govt. school cleared the Gyansetu exam

WORLD ENVIRONMENT DAY CELEBRATIONS

On the occasion of World Environment Day, Nyasa collaborated with the Green Club at IIT Gandhinagar to organize a fun and creative activity for children. Led by Nyasa team member and Green Club member Rashid Pathan, the session encouraged children to explore nature through art. Using fallen leaves collected from the campus, the children created beautiful artworks while learning about sustainability and the importance of appreciating natural resources. The activity sparked creativity, environmental awareness, and plenty of smiles, making it a memorable experience for everyone involved.

BASAN COMMUNITY HEALTH CAMP

A medical camp was successfully conducted in Basan on 16 November, during which healthcare services were provided to 111 community members. Organized under the initiative Social Change Through Arts & Sports, the camp was carried out in collaboration with the Social Action and Policy Lab at IITGN. The camp emphasized the importance of accessible primary healthcare and meaningful community engagement. Beyond medical check-ups, the initiative facilitated one-on-one interactions that helped build trust, address concerns, and raise awareness about basic health and well-being. The experience reaffirmed that sustainable social change is often achieved through consistent, people-centric efforts at the grassroots level. Nyasa extends its sincere gratitude to Dr. Navdeep Tiwari for volunteering his time and expertise, and to Mr. and Mrs. Gujjar for generously providing medicines for the camp. Nyasa also thanks the resident volunteers of Basan for their cooperation, trust, and warm reception, which were integral to the camp's success.

INDEPENDENCE DAY

On the 79th Independence Day, Nyasa was filled with pride and passion as our talented school kids lit up the stage with soul-stirring patriotic performances. Their voices echoed the spirit of freedom and unity. We also celebrated our tradition of gratitude by felicitating last year's Chetana and Akanksha volunteers for their incredible contributions. From melodies of patriotism to moments of recognition, Nyasa's 79th Independence Day was pure magic.

GANESHOTSAV & ONAM

The Ganeshotsav celebration on August 30th was a memorable one for the Nyasa kids, thanks to Team Ganesha. The event featured two engaging sessions: a Ganesha-making workshop led by Mr. Dishant Tanmay of Palette and a captivating storytelling session by Mr. Nivid Desai, who enthralled the children with his tales. On 5th September, the campus came alive with the vibrant spirit of Onam. The kids experienced the beauty of tradition, from the stunning pookalam to the grand Onam Sadya served on banana leaves.

TEACHERS' DAY & CHILDREN'S DAY CELEBRATIONS

Nyasa celebrated Teachers' Day this year with a spirit of gratitude and togetherness. The program began with soulful songs and prayers led by our volunteers who teach the children, setting a reflective and appreciative tone for the day. This was followed by inspiring addresses from our school teacher, Falguni Ma'am, and the Faculty In-Charge, Prof. Krista R. Khiangte, who highlighted the transformative role of educators and volunteers in the Nyasa journey. The celebrations continued with group games that fostered participation and camaraderie among students and volunteers alike. A felicitation ceremony was organized to acknowledge the dedicated efforts of Nyasa members, volunteers, and supporters. The day concluded on a cheerful note with cake-cutting and a lively dance, celebrating all the guiding forces of the Nyasa family.

In collaboration with the Counseling Team of IIT Gandhinagar, Nyasa also celebrated Children's Day this year. The session was designed to be interactive and engaging, featuring a range of fun activities to encourage participation and expression among the children. These activities engaged the children and fostered creativity, imagination, and confidence in a joyful, supportive environment.

DIWALI CELEBRATION

On October 20, 2025, the Nyasa team organized a vibrant Diwali celebration filled with festive fervor. The morning began with a traditional Lakshmi Pooja and the crafting of beautiful rangolis, while diyas and decorations added a bright touch to the surroundings. As a special Diwali gift, each child received a gullak (piggy bank), encouraging the value of saving while adding excitement to the celebration. The event was filled with laughter, creativity, and a strong sense of togetherness, making it a memorable occasion for all.

The festivities were defined by a spirit of togetherness and the Nyasa team personally went to the security personnel, helper staff, and the nearby village to share sweets and celebrate together. This heartfelt gesture ensured the joy of the festival reached everyone where they were, rounding off a morning of true community warmth and togetherness.

TRIP TO SCIENCE CITY

On December 12, the Nyasa kids went on a fun and exciting trip to Science City. They explored the Nature Park, where they learned about different kinds of living creatures through models and displays, helping them understand the diversity of life in an engaging way. At the Aquatic Gallery, the children were thrilled to see colorful fish and other aquatic species, and spotting penguins for the very first time filled them with joy and excitement.

The visit also included the Astronomy and Space Science gallery, where the children learned about the solar system and watched an exciting rocket demonstration. The trip sparked their curiosity, encouraged questions, and made learning science a joyful and memorable experience.

WINTER CAMP

As part of the Winter Camp outreach program, ~80 students from Palaj, Basan, and Prantiya Government Schools visited the Central Library at IIT Gandhinagar. The visit familiarized students with an academic library environment and helped them understand the role of libraries in supporting learning beyond textbooks. Through guided sessions, students were introduced to the library's diverse resources, including books, reference materials, digital content, and study spaces. The visit enhanced students' awareness of reading habits, information access, and independent learning.

An interactive session followed, during which students were provided with an activity booklet designed to strengthen academic concepts and life skills. Selected activities were conducted during the visit, while others were explained for later practice. These activities encouraged mathematical thinking, logical reasoning, time management, and basic financial awareness, enabling students to apply classroom learning to real-life situations.

In the second phase of the Winter Camp, a character design and animation session was conducted by Mr. Himangshu Kothari from the Art@IITGN. Students created cartoon characters using colors and basic drawings, which were later animated using freely available online platforms. This hands-on session introduced students to the fundamentals of animation and digital creativity, making learning both engaging and experiential. Overall, the combined sessions enhanced students' curiosity, creativity, and understanding of diverse learning methods.

SANJEEVANI HEALTH CAMP

On January 11, 2026, Nyasa hosted Sanjeevani 2026, marking the 10th edition of its annual health camp in Giyod village. Following an extensive marketing and outreach campaign to spread awareness, the camp ultimately provided free medical consultations and essential medicines to over 480 community members. To ensure the elderly and needy patients could benefit from the camp without worrying about mobility, free transport services were provided throughout the day. The initiative was run by a dedicated team of student volunteers and nine medical professionals specializing in ophthalmology, dermatology, orthopedics, pediatrics, general medicine, gynecology, dentistry, and physiotherapy. By offering these diverse services, the camp continues to serve as a vital bridge for accessible healthcare, reinforcing our long-standing commitment to rural community welfare.

VASANT PANCHAMI

The children of Nyasa joined the IITGN community for a soulful Vasant Panchami celebration on January 23, 2026, marking a day of spiritual reflection and cultural engagement. The event featured student-led prayers and a traditional Saraswati Puja, where the children sought blessings from the Goddess of Knowledge. The celebration concluded with the distribution of Prasad, fostering a sense of belonging and community harmony among the students.

HOLI CELEBRATION

The festival of colors was celebrated with immense fervor and enthusiasm as the Nyasa students joined the IIT Gandhinagar community's day-long festivities. Embracing the spirit of "togetherness and India's rich cultural oneness," the children engaged in traditional celebrations, sharing the joy of the season with each other. To add to the excitement, each child was gifted a water gun, and the event concluded with a vibrant display of communal harmony. Beyond the play, the celebration served as a vital platform for social integration, enabling the children to experience the Institute's diverse cultural fabric.

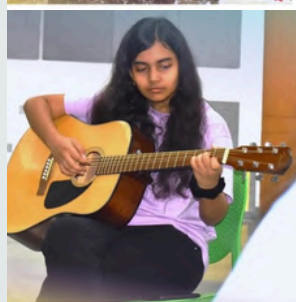

ANNUAL BIRTHDAY CELEBRATION

On April 12, 2026, Nyasa IITGN hosted its annual mass birthday celebration, bringing together its school children, student volunteers, and campus residents for a day of joy and community bonding. Because many children lack official birth records, Nyasa dedicates this special day each year to ensure every child experiences the joy of a birthday celebration.

The event featured dynamic cultural performances by IITGN community members, along with classic recreational games such as Musical Chairs and Dumb Charades. The Faculty-in-Charge joined the festivities to bless the children during the traditional cake-cutting ceremony, which was followed by the distribution of thoughtful gifts.

By fostering a warm, inclusive, and joyful environment, the initiative successfully created lasting memories for the students, reinforcing Nyasa's ongoing commitment to the holistic well-being and social integration of underrepresented children.

NYASA 2025-26 AT A GLANCE

- 60+ students attended Summer Camp
- 9 children enrolled in formal schooling
- 111 beneficiaries through the Basan Mini Health Camp
- 500+ villagers reached through Sanjeevani
- 80+ students engaged in Winter Camp
- 100+ volunteers involved in Chetana and Akanksha.

We extend our heartfelt gratitude to all the individuals, organizations, campus groups, faculty members, and volunteers who collaborated with us throughout the year. Their support, trust, and enthusiasm helped us create meaningful learning experiences and lasting memories for our children. We deeply value these partnerships and look forward to continuing this journey together in the years to come.
